OBJECTIVE

Entry-level software developer and MCA student with hands-on experience building secure, database-driven web applications using Python, Flask, MySQL, HTML, CSS, and JavaScript. Experienced in debugging production issues, automating test workflows, and optimizing backend performance in Agile environments. Seeking a software developer role in scalable systems.

SKILLS AND INTERSETS

Programming Languages	Python, Java
Frameworks	Flask
Web Technologies	HTML, CSS, JavaScript
Database	MySQL
Tools & Concepts	Git, GitHub
Soft Skills	Requirements analysis, Task ownership, Cross-functional collaboration

EDUCATION

Master of Computer Applications (MCA)	Aug 2024 – Apr 2026
RVR & JC College of Engineering, Guntur	CGPA: 9.01
Bachelor of Computer Applications (BCA)	Jul 2021 – Apr 2024
PB Siddhartha College of Arts & Science, Vijayawada	CGPA: 8.01

EXPERIENCE

Feb 2024 – May 2024

Python Full Stack Developer Intern — Codegnan IT Solutions Pvt. Ltd.

- Fixed 12+ backend and frontend defects, improving application stability by 8%.
- Maintained reliability of 3 production modules as the sole intern.
- Increased automated UI test coverage from 10% to 35%.
- Reduced regression testing time by 60% using Selenium and Cypress.

CERTIFICATIONS

- Introduction to Internet of Things — NPTEL
- Introduction to Web Development — Eduskills

PROJECTS

Basic Data Type Creation in C++ (Operator Overloading)

- Implemented 50+ functions handling arithmetic, relational, and assignment operations.
- Applied object-oriented programming principles and efficient memory management.
- **Tech Stack:** C++, OOP, STL, Memory Management

HYDRARAD – Mobile Radiation Understanding Website

- Developed an interactive dashboard visualizing radiation impact on groundwater using graphs.
- Provided awareness tips and insights through an intuitive user interface.
- **Tech Stack:** Python, Flask, HTML, CSS, JavaScript, MySQL, Data Visualization.

URBAN QUEST – Smart Urban Travel & Booking Platform

- Developed a smart urban travel platform enabling metro, car, cycle, and walk bookings with price comparison.
- Integrated hotel booking, travel history management, and an AI chatbot for user assistance.
- Implemented traffic-aware navigation for efficient commuting.
- **Tech Stack:** Python, Flask, MySQL, HTML, CSS, JavaScript, REST APIs, Google Maps & Traffic API

POSITIONS OF RESPONSIBILITY

Academic Project Lead

- Led full-stack development and deployment, reducing costs by 10% while maintaining clear documentation and delivery standards.

HOBBIES AND INTERESTS

- Gardening
- Making crafts and drawings
